

Excelsior

The Rapport EXCELSIOR is the only "off-road" limousine in the world — a craftsman-built blend of unsurpassed luxury and impressive cross-country capability. A sophisticated development of the basic British Range Rover, the EXCELSIOR's elegance, four-wheel power and versatility is already in service with many of the crowned heads of the world's royal families.

There is no parallel to the practicality of the Rapport EXCELSIOR, designed as a luxury work-horse for the toughest of terrains. Its doors and the finely engineered wheelbase extension provide excellent interior space for equipment, people and the huntsman's prey.

Electro-hydraulic hunting seats

Eight-seat capacity

In its drop-head form the Rapport EXCELSIOR is a superlative state limousine. Dignified lines, a wide range of coach finishes and other refinements will crown any prestigious occasion.

The pinnacle of opulence

The Regal aspect
